SUMMARY

I'm a passionate Full Stack Developer with skills in both frontend and backend technologies like React.js, Node.js, and JavaScript. I enjoy building websites and web apps that are easy to use and solve real problems. I'm always eager to learn new things and work on exciting projects that make a difference.

SKILLS

Front-End: HTML, CSS, Bootstrap, JavaScript, ReactJs, Material UI, Tailwind CSS
Back-End: ExpressJs, NodeJS, RESTful APIs, JWT, Mongoose, Sequelize, packages
Database: MongoDB, PostgreSQL
Version Control & Tools: Git/GitHub, Postman, Visual Studio Code

EXPERIENCE

Busitron IT Solutions Pvt Ltd / Junior Full Stack Developer   **[01/2025]- [4/2025]**

- Developed full-stack web applications using **React.js**, **Node.js**, and **Express.js**.
- Built and optimized **RESTful APIs** for secure data exchange using **JWT**, **bcrypt**, and **Express Validator**.
- Worked with **PostgreSQL** for handling backend data operations and queries based on project requirements.
- Designed and implemented **responsive UI components** using **Material UI**, **Tailwind CSS**, and **Bootstrap**.
- Collaborated with senior developers on end-to-end features, from frontend to backend.
- Used **Git/GitHub** for version control and **Postman** for testing API endpoints.

Zidio Development / Junior Full Stack Developer (Internship)   **[07/2024]-[10/2024]**

- Assisted in developing web applications using React.js and JavaScript.
- Gained experience in writing APIs and handling databases.

EDUCATION

COURSE	COLLEGE/SCHOOL	YEAR OF PASSING	PERCENTAGE
B.COM (Computer Application)	SK University, Anantapur	2021	75%
INTERMEDIATE(Mpc)	Space junior college, kadiri	2018	85%
SSC	Govt Urdu High School, kadiri	2016	85%

ACHIEVEMENT

Earned a certification in Full Stack Development, demonstrating proficiency in MERN stack technologies and project management.

PROJECTS

1.VERIRATE   Fed-2025

- Enables companies to **store and manage employee data, verify backgrounds, rate performance, and handle blacklisting** securely.
- Provides **role-based access control, dispute resolution, real-time performance tracking, and employment verification.**
- Ensures **compliance with security standards** and **data integrity** for better hiring decisions. **Veritate** is a cloud-based employee management platform.

Technologies Used: Frontend: React.js, MUI, Tailwind CSS, Axios, Framer Motion. **Backend:** Node.js, Express.js, Sequelize **Database:** PostgreSQL. **Authentication & Security:** JWT, bcrypt, Helmet, Express Validator. **Other Tools:** Multer (file uploads), Nodemailer (email service), Chart.js.

3.Mongo Secure REST API
Description:

- A backend API built using **MongoDB**, **REST APIs**, and **JWT authentication** to ensure secure and efficient user interactions and data handling.
- Features secure user authentication and authorization using **JWT (JSON Web Tokens)** to protect API routes and sensitive resources.
- Implements **CRUD operations** following REST principles, with endpoints for creating, reading, updating, and deleting data.
- Utilizes **MongoDB** as the NoSQL database for managing user data, session information, and other resources.
- Includes robust error handling, input validation, and a scalable architecture for future enhancements.

Technologies Used:
HTML, CSS, JavaScript, React.js, NodeJS, MongoDB, ExpressJs, RESTful APIs, JWT

STRENGTH

1. **Adaptability:** Quick to learn and implement new technologies and methodologies.
2. **Time Management:** Effective at managing time and prioritizing tasks to meet deadlines.
3. **Problem-Solving**: Strong analytical skills to debug and optimize backend systems.
